

The President's Committee is comprised of Past President Robin Baron, President-Elect Bjorn Bjornsson, Kim Radovich, Elissa Grayer, Darrin Varden, Drew McGukin, Bonnie Steve and Tyler Wisler. The only moment this busy crew sat down was for the picture.

The Living Room setting featured an array of luxurious products from ASID NY Metro Industry Partners including two sofas from Christopher Guy; a coffee table and console by Theodore Alexander; rugs by Nourison; lamps from Donghia, Currey & Co. and Metropolitan Lighting; and accessories by Cliff Young, CF Modern, Robert Kuo, Century Furniture and Phillips Collection, to name just a few.

DESIGN IMPACTS LIVES:

ASID NY Metro at Bailey House Auction and Gala

text by Danielle McWilliams
photography by Robin Baron Design

FOUNDED IN 1993, BAILEY HOUSE was the first organization in the country to introduce an innovative housing program linking people living with HIV/AIDS to much-needed apartments, health care and other support services. Its annual auction and gala—the non-profit's biggest fundraising event of the year—paired New York's tastemakers and trendsetters with leaders from business, entertainment, media, fashion, art and design to celebrate the mission of Bailey House and honor its allies. Under the leadership of the President's Committee, the NY Metro Chapter delivered an extraordinary vignette that captured the spirit and generosity of the evening.

According to Past President Robin Baron, "I'm thrilled that our ASID Chapter was involved in such a wonderful cause. The President's Committee was dedicated to using our connections and our vendor's generosity to help make our vignette beautiful and chock-full of great products to help raise money to benefit Bailey House!"

"I'm thrilled that our ASID Chapter was involved in such a wonderful cause."

five to follow

text by Danielle McWilliams

These five stylish  Instagram accounts never cease to inspire. Chock full of color, design, art, events and simply beautiful images, they are worth a look and a follow:

Many people navigate safely in their homes, creating a world of soft neutrals (read: BEIGE), and there are others who navigate boldly, harnessing the power of color. With a group of panelists known for their innovative and often fearless approach to color, interior designer Bonnie J. Steves will reveal their inspirations to help us all make the world a more colorful place. **#notbeige**
